Available upon Request

Hello,

I am a highly creative person and have had experience working on a variety of different projects, both creative and theory driven. I am able to adapt very well to different situations and can competently work through complex problems to achieve the best results; for myself and for the work team. I have a great understanding of tight deadlines as well as time management and I can work efficiently by myself whilst maintaining the openness to work and collaborate with other people, which I believe would make me a great addition to your team. I always put the most into my work and I hold myself to a high standard as I have always had an eye for detail. I feel that my dedication and experience has prepared me well for any new experiences I may face and has given me all the tools I need in order to succeed in my role!

Work Experience

2018-2023
Swindon

Visitor Experience Assistant

Ba Hons 2D and Stop-Motion Animation – Bachelor's Degree

Cambridge Marketing College Apprenticeship:

Content Creation

Skills

I am very knowledgeable of what processes to take during pre-production, production through to post-production. I have spent many years developing my skills in Adobe Premiere Pro and other similar software. I can learn new information and skills quickly and can adapt to new working methods easily. I am great with interpreting briefs and can identify target markets effectively in order to create content that is tailored for a specific audience and purpose.
